PREFACE

RALEIGH, THE CAPITAL OF NORTH CAROLINA, THE COUNTY SEAT OF WAKE COUNTY. AN EPITOME OF THE CITY'S GROWTH, PROGRESS AND INDUSTRIES.

The Educational Center of North Carolina, with a larger proportion of population in schools than any other place in the United States. Both a cotton and tobacco market. A City full of attractions for all visitors. Location, mid-way between New York and Florida. A glorious winter climate, with a remarkable extent of sunshine. A railway center, in touch with all points.

RALEIGH'S FEATURES

Raleigh, the capital of North Carolina, was founded in 1792, the site having been chosen by a Commission appointed by the Legislature. The city is one of the three in the United States laid off as cities, the two others being Savannah and Washington. The location is at the border of the great pine forest, which extends eastward to the sea, and the rolling land, largely timbered with oaks. The suburbs are peculiarly attractive, with an abundant and never-failing supply of the best water, in streams and in springs. The altitude of the city above the sea level is 365 feet. Raleigh is unique in one respect, in that it is the only city which was formally surrendered during the Civil War, this surrender having been made by Commissioners sent to meet General Sherman, commanding the Federal troops, in April, 1865.

The population is 29,000, of which the city authorities estimate 11 per cent white and 9 per cent colored. The death rate for the entire population annually is only 12 per 1,000; that for the whites being 10 per 1,000 and for the negroes 15 per 1,000. The death rate has been reduced 50 per cent as to negroes during the past ten years and 25 per cent as to the whites.

The city is thoroughly sewered, the sewage being emptied into streams two miles distant. There is an abundant supply of excellent water, from a bold and clear stream, the watershed of which is short, and very carefully policed.

The county roads about Raleigh are peculiarly attractive, gently rolling, with a wide variety of vegetation, and offers particularly desirable sites for building, while as a farming region, taking the crops in general, no county surpasses Wake, of which Raleigh is the county-seat.

GENERAL FACTS ABOUT RALEIGH

Number of square miles in corporate limits, 4. Number miles of streets, 90—of which 5 are paved and 25 macadamized. Miles of water main, 60. Number of water-takers, 1,600. Miles of telephone lines within the corporate limits, 1,250. Number of telephones, 1,900. Post-office receipts, \$67,790. Postal pay-roll, \$875,000. Number of school children in attendance at 14 public schools, 4,600. Number of students attending schools other than public school, 3,500. Amount of bank clearings, \$2,159,275. Amount of bank deposits, \$2,998,830. Amount of bank resources \$4,500,000. Assessed value of property, \$5,166,240. Number building permits during year, 200. Number cotton mills, 8. Number banks, 7. Number manufacturing plants, 40. Number printing houses, 6. Number newspapers, 15. Gas companies, 1. Electric companies, 1. Telephone companies, 2. Telegraph companies, 2. Number churches, 43. Number schools, 27. Number railways, 4 miles of street railway 11. Public libraries, 3—number volumes, 75,000. Parks, 4. Number State buildings, 22—value \$3,000,000, which is not included in the tax valuation.

RALEIGH'S INDUSTRIAL LIFE

The Raleigh Schools are justly famed and have given it a natural reputation. The banks, seven in number, make a fine showing. The four railways put the place in touch with all sections. Another, The Montgomery Companies line is under construction from Spring Hope here. The story of the churches and Sunday-schools tells in the plainest sort of a way a fine phase of the city's life.

Apart from what may be termed the industries, there must be mentioned in a general way the dry-goods, clothing, grocery, drug and other establishments, which are in every way a credit to the city.

The amount of building now in progress shows that the new life is on, Raleigh has the splendid advantage of electric power for all its industrial plants, this coming from Buck Horn Falls, 26 miles distant and affording ample and effective power.

243539

THE ATTRACTIONS IN RALEIGH

At few capitals are there more public buildings of various kinds connected with the State government than there are here. Among these are the Capital, the Governor's Mansion, the State Museum, including the Hall of History, the State Agricultural Department, including the chemical laboratories and various sub-departments. The State Library. The Supreme Court Library. The Central Hospital for the Insane. The Penitentiary. The Agricultural and Mechanical College. The State Experiment Station. The State Poultry Farm. The North Carolina Confederate Soldiers' Home and the State Fair Grounds. The State School for the white blind and that for the negro deaf-mutes and blind.

Anyone wishing further information about Raleigh, can secure it promptly by writing the

CAN

CANCER

BE

CURED?

IT CAN

WE WANT EVERY man and woman in the United States to know what we are doing. We are curing Cancers, Tumors and Chronic Sores without the use of the knife or X Ray. We are endorsed by the Senate and Legislature of Virginia. Come and see what we have done and are doing; if then you are not satisfied that we do all we claim, we will pay your railroad fare.

WE GUARANTEE OUR CURES

The Best Fertilizers for Corn

That the yield of corn from the average farm can be greatly increased by intelligent and liberal fertilization has been repeatedly demonstrated. Large crops of good corn result from preparing the land well, using the right kind and quantity of fertilizer, good seed and proper cultivation.

Virginia-Carolina Fertilizers

will greatly "increase your yield per acre" of corn or any other crop. In some cases remarkable results have been obtained.

Mr. C. W. Caruthers of Sumpter County, Fla., writes: "Words cannot express the value of your fertilizer. It is really so far ahead of other companies' goods, that it would not pay anyone to use other brands, were they given free and put in the field. I can prove what I say to be a fact. I made a test on five acres. I used on one half the land your fertilizer and on the other half another company's fertilizer, same grade; the land received the same cultivation every time. *I kept a correct account of the amount of money I got off each half and I got \$300 more from the land on which I used Virginia-Carolina Fertilizer than I did off the other half. I got four times as much corn from the land on which I used your fertilizer.*"

Write today to nearest office of the Virginia-Carolina Chemical Company for a free copy of the new 1909 Farmers' Year-Book or Almanac, full of the most valuable and unprejudiced information for planters and farmers; or ask your fertilizer dealer for a copy.
